£7,875

Cottages, Playhouses and Castles

Our collection of handmade playhouses offers a unique range of children's cottages and houses made to a very high specification. All our buildings are designed with the idea of providing a perfect place for children to make their own, all in the comfort of your garden.

Damson Cottage

Damson Cottage is a charming classic country cottage. It is ply lined inside and then painted inside and out in your choice of colours. The interior walls resemble the plastered and painted walls of a real house. The roof is cedar shingle with a dormer feature over the door. Supplied with window boxes.

£4,500

Badger Lodge

Badger Lodge is a lovely two storey playhouse which has bags of charm and character. With a large mezzanine which covers half the width of the inside space. The door is set back so there is a veranda. Supplied with window boxes. We construct the roof with cedar shingles.

£9,250

Otter Cottage

Otter Cottage is a larger playhouse. With it's two front windows providing symmetry this playhouse makes a statement in any garden. Supplied with window boxes.

£5,250

Harvestwood House

This large 2 storey playhouse has a grandeur and presence all of its own. Its double fronted design and cedar roof with 2 dormer windows ensure this playhouse looks stunning, particularly as we paint it in your choice of colours. The inside is ply lined and painted. Supplied with window boxes. There is a mezzanine level which covers half the internal area of the playhouse.

£12,600

Willowbank Cottage

A charming play cottage with activities included. The main house is lined and painted inside. There's a covered upper play deck and an extra room underneath. Product includes: Slide, climbing wall and window boxes.

£7,500

Fantasy Castle

This stunning play castle is a huge 4m wide x 2.4m deep. Each one is designed to suit the customers requirements and specification.

Bespoke Playcentres

Our ability to design and create extraordinary playcentres is almost boundless. We have an extensive portfolio of bespoke installations. These can be small or large. They can be themed and styled in many ways. We can design from scratch or adapt an existing product from our range or revisit a previous bespoke design so that it works for you.

Please feel free to talk to us about what we can do for you. Usually a short conversation will enable us to establish some initial ideas and to give us sufficient information to be able to do some preliminary designs and work out some costings. This preliminary discussion and subsequent response is at no charge, and no obligation.

Delivery and Installation

Installation

Installation times are dependent on location, site topography, the size of the playcentre and whether the creation of a safety surface area is required. We will advise at the time of quotation the anticipated installation time. Usually 2 or 3 days is required, with the exception of some bespoke play centres which may take more.
